

Account Lifecycles - Gaining and Losing Access

This is a guide to help you get an idea of when you gain access and lose access to various accounts and services at SU.

When Do I Gain Access To...?

MyClasses

Student:	Generally one week before the start of classes, if you have a class that uses MyClasses. If you aren't taking any classes that use or have been setup in MyClasses, you won't have or need access.
Faculty:	You will need to request a class be created in MyClasses. Then, after the request is received, the class will be created. This can be done any time throughout the semester, and must be done each semester for each class you want to use MyClasses for.
Staff:	Staff do not use MyClasses and do not have access.

Email

Student:	Once you are term matriculated, for degree seeking students. This is generally immediately before Freshman and Transfer Preview, and students will receive their email information at Preview. This occurs in June for the Fall semester, and in January for the Spring semester. Students who don't attend preview or who register after receive the information via regular mail after Preview. Non-degree students who register for classes in Summer/Winter are created within immediately (within 24-48 hours of admission).
Faculty:	Email is created when contract is entered by HR . Information is delivered to the department through inter-departmental mail.
