

How to Disable Pop-Up Blockers in Common Browsers

This guide provides instructions to turn off or disable built in pop-up blockers in several of the most common web browsers. Because these browsers can be changed and updated without notice, the directions for your specific browser may vary slightly. The version of the browser used for these instructions is noted in each browser section for reference.

Internet Explorer (version 11.1593.14393.0)

- Click on **Tools** (Alt-X) in the upper right corner. The Tools icon looks like a sprocket.
- Click **Internet Options**.
- Click the **Privacy** tab.
- In the **Pop-up Blocker** section, uncheck **Turn on Pop-up Blocker**.
 - You can also use the **Settings** button to add or remove individual websites.
- Click **OK** to exit.

Microsoft Edge (version 38.1493.1006.0)

- Click on the **More** button in the upper right corner. The More icon looks like three horizontal dots.
- Click **Settings**.
- Click **View Advanced Settings**.
- Click the slider to the left of **Block pop-ups** to turn it off.
- Click anywhere in the browser to close the Settings window.

Google Chrome (version 60.0.3112.101)

- Click on the **Tools** menu in the upper right corner. The Tools icon looks like three vertical dots.
- Click **Settings**.
- Scroll to the bottom and click **Advanced**.
- In the **Privacy and Security** section, click **Content settings**.
- Click **Popups**.
- Click the toggle to the right of **Blocked (recommended)** to change it to **Allowed**.
 - You can also add and block individual websites on this page.
- Close the **Settings** tab.

Mozilla Firefox (version 55.0.1)

- Click on the **Menu** in the upper right corner. The Menu icon looks like three stacked horizontal lines.
- Click **Options**.
- Click **Content**.
- In the **Pop-Ups** section, uncheck **Block pop-up windows**.
 - You can also click the **Exceptions** button to add or remove individual websites.
- Close the **Content** tab.

Safari for Mac (version 10.1.2)

- In the **menu bar**, click **Safari** and then **Preferences**.
- Click **Security**.
- In **Web content** uncheck **Block pop-up windows**.
- Close the **Preferences** window.

Google Chrome for Mac (version 60.0.3112.90)

- In the menu bar, click Chrome and then Preferences.
- Scroll to the bottom and click **Advanced**.
- In the **Privacy and Security** section, click **Content settings**.
- Click **Popups**.
- Click the toggle to the right of **Blocked (recommended)** to change it to **Allowed**.
 - You can also add and block individual websites on this page.
- Close the **Settings** tab.

Mozilla Firefox for Mac (version 54.0)

- Click on the **Menu** in the upper right corner. The Menu icon looks like three stacked horizontal lines.
- Click **Preferences**.
- Click **Content**.
- In the **Pop-Ups** section, uncheck **Block pop-up windows**.
 - You can also click the **Exceptions** button to add or remove individual websites.
- Close the **Preferences** tab.
