

This guide covers the current software offerings in Information Technology labs on campus. Note that all software is not available in all labs. The software listed on this page is accurate to the best of our knowledge at the time of printing. However, software changes are inevitable and recent changes may not be reflected on this page. Please verify the software in the lab prior to scheduling. Also note that this software list reflects the current semester only, and that software version, availability, location and licensing changes frequently and often from semester to semester.

Inquiries about installation or the purchase of licenses may be made online at <http://support.salisbury.edu/user/>
