		Subtitle: Terrorism, Securty Intl Peace							
		NOTE: This course introduces students to the conflict condition commonly known as "terrorism", and the various challenges that nation states face as they deal with terrorist challenges. The course will be structured on a two-track approach. The first track of the course is both conceptual and definitional, in which we seek to understand terrorism on a rather theoretic level. It will involve an exploration of the ways terrorism is defined in legal, policy, and research terms. Such questions as: what perspectives of international relations and conflict resolution theories best capture the phenomenon of terrorism in today's international environment - Francis Fukuyama's end of history, Samuel Huntington's clash of civilizations, or Thomas Friedman's impact of globalization? It will also cover issues of broad terrorist strategies and specific terrorist tactics.							
*1163	CADR 405-702	SPECIAL TOPICS	4	LEC	TBA	TBA		ONLINE	OZOKE
		Subtitle: Race & Race Relations in Amer							
		NOTE: This course examines race on legal, conceptual and practical levels. It traces the historical social construction of race, the legislation of racialized structures, the evolution of racist practices at individual, systemic, and institutional levels, and the effect of those constructions, structures, and practices on race relations in the United States. Part of this critical examination is the social location of racial and ethnic groups, including whites, as well as the intersections of race and other matrices of inequalities, such as class and gender. As a critical study, the theory underlying this course is Critical Race Theory (CRT). Prerequisite: None
