

PERSISTENCE DATA FOR CSA – PRESIDENT’S ADVISORY TEAM REPORT

September 18, 2023

Updates

- The Center for Student Achievement works with undergraduate students in four main ways – Supplemental Instruction through scheduled, out-of-class group study sessions; tutoring through one-on-one or small group support; Success Coaching through collaborative work on succeeding academically; and the GENL 103 course that introduces students to study strategies and campus resources.
- Data shows that students who utilize CSA’s resources earn higher grades, persist at a higher rate, and graduate at a higher rate than those students who do not participate.

Persistence Data

Supplemental Instruction

| <i>Category</i> | <i>Persistence Rate</i> |
|--------------------------|-------------------------|
| Fall 2022 to Fall 2023 | 88.7% |
| Spring 2023 to Fall 2023 | 94.8% |

Tutoring

| <i>Category</i> | <i>Persistence Rate</i> |
|--------------------------|-------------------------|
| Fall 2022 to Fall 2023 | 87.5% |
| Spring 2023 to Fall 2023 | 97.3% |

Success Coaching

| <i>Category</i> | <i>Persistence Rate</i> |
|--------------------------|-------------------------|
